INDIAN INTERNATIONAL MUN

THE STORY

Indian International Model United Nations(IIMUN) is the leading voice of young India. It is an organisation that believes in the concept, for the youth and by the youth since it is completely run by young students in the age group of 17 to 26 years.

It was started in 2011 by a young and dynamic individual, who is also the Founder President, Mr. Rishabh Shah. He was only 18 years old at that time and wanted to do something which benefited the educational sector in India.

The aim to start this organisation was to give the youth a platform to voice their opinions about the current affairs in the world and give the students an international exposure of conferences in India itself. He wanted to make this platform a reliable and established one so that students would come up with solutions that are unique.

Hence, it was decided that the best draft resolution of the IIMUN Conference would be forwarded to the United Nations where they can be discussed.

OUR ACHIEVEMENTS

First external civil society organisation to conduct MUN conferences inside UN Headquarters, New York

We make students discuss whatever happens in the world

World's Largest Model United Nations Organisation

Conferences taking place in 160 cities in Indian and 22 countries across the globe

Conferences in IIM Ahmedabad and Bangalore

World's largest MUN Conference conducted with 7,500 Students

Asia's first MUN procedure, accepted by 2541 institutions

2016-17
108 CHAPTERS IN INDIA
15 INTERNATIONAL

2017-18
160 CHAPTERS IN INDIA
22 INTERNATIONAL

WHAT IS MODEL UN?

Model United Nations is an academic simulation of the United Nations that aims to educate participants about current events, topics in international relations, diplomacy and the United Nations agenda. The participants role play as diplomats representing a nation or NGO in a simulated session (committee) of the United Nations, such as the Security Council or the General Assembly.

Participants research a country, take on roles as diplomats, investigate international issues, debate, deliberate, consult and then develop solutions to world problems. Model UN delegates also look closely at the needs, aspirations, and foreign policy of the country they will "represent" at the event. The insights they gain from their exploration of history, geography, mathematics, culture, economics, and science contribute to the authenticity of the simulations once the actual role-playing gets underway, and ensures a lively and memorable experience.

As many states move to implement standards for global citizenship, Model UN is proving to be an innovative resource to prepare students for career and college success.

THE PERKS

An MUN conference is not only a gateway to understanding the problems of the world and how to combat them. It enables holistic development which inculcates the following in each and every participant:

- A detailed working of the body that ensures peace and harmony, the United Nations
- Developing knowledge about different countries and their policies
- Providing an atmosphere to develop the personalities of the participants
- Creating an open minded view about the different agendas that they are discussing
- Enhancing their communication skills

The most important feature that can be seen in an MUN conference is the network that the students build with each other.

TESTIMONIALS

“Indian International Model United Nations will help you become life long global citizen that who will help build true prosperity and lasting peace”

Mr. Ban Ki-Moon,

Former Secretary General,

United Nations

IIMUN Championship Conference 2015 (Video Message)
